

EMPLOYMENT LAW FIRM OF THE YEAR

Mulberry's Employment Law Solicitors

Mulberry's is a niche boutique employment law practice advising individuals and businesses worldwide on UK employment law. With bases in Brighton and London, it was founded by Zoë Lagadec in 2007 to provide bespoke specialist advice and has since expanded its reach while retaining the personal service larger firms may lack. Focused expertise and tailored guidance remain central to its client-centred approach.

The judges were particularly impressed by Mulberry's commitment to ethical, sustainable and accessible services. The firm pioneered remote advice before it became commonplace, helping clients access support regardless of circumstances. The firm also offers mediation and facilitated conversations, as well as free webinars on navigating changes, as part of the new requirements under the Employment Rights Act 2025.
